Prem Kumar N

Engineer - Cloud and Infra Management | Cadre: P1 | Location: Chennai

Experience Summary

- AWS Cloud & DevOps Engineer with 3.5+ years of experience in AWS cloud infrastructure, Linux administration, CI/CD automation, Terraform, Docker, Kubernetes (EKS), and production support. Skilled in Infrastructure as Code, cloud operations, monitoring, incident management, deployment automation, and troubleshooting, with a strong focus on reliability, scalability, and operational excellence.

Skills Summary

Technical	AWS, EC2, S3, VPC, IAM, Lambda, RDS, EKS, ECS, ELB, Auto Scaling, CloudWatch, CloudFormation, Terraform, Kubernetes, Docker, Jenkins, AWS CodePipeline, AWS CodeDeploy, Git, Prometheus, Grafana, GOCD, Python
Management	Operational Coordination, Task Prioritization, Incident Management, Stakeholder Coordination
Behavioural	Problem-Solving, Attention to Detail, Team Collaboration, Communication, Adaptability
Domain	Cloud Infrastructure & Operations, DevOps, Infrastructure as Code, CI/CD, Containerization & Orchestration, Monitoring & Observability, Cloud Security
Language	English, Tamil

Professional Background

- LTM Experience: 1.3 years
- Cognizant Technology Solution Experience: 2.2 years

Work Experience

Project Name	ABSA - AWS Cloud Infrastructure & DevOps
Start Date	01 Nov 2025
End Date	31 Oct 2026
Project Description	Worked on AWS cloud infrastructure management, DevOps automation, and production support, focusing on maintaining infrastructure reliability, troubleshooting CI/CD pipelines, monitoring application health, and automating

	cloud resource management. Supported day-to-day operations, incident resolution, and infrastructure lifecycle management to ensure smooth and reliable service delivery.
Roles and Contribution	• Managed AWS cloud infrastructure operations and production support activities. • Troubleshoot GoCD CI/CD pipeline failures and supported deployment-related issues. • Supported CloudHub applications and investigated application and infrastructure issues. • Configured and supported Amazon ECS monitoring and CloudWatch alarms for CPU, memory, task status, deployment failures, and load balancer target health. • Executed AWS account decommissioning and resource cleanup using automated pipelines. • Investigated AWS CloudTrail logs to troubleshoot access issues and audit AWS resource activities. • Supported IAM roles, policies, permissions, and access-related troubleshooting. • Worked with Terraform modules and infrastructure automation workflows. • Collaborated with cross-functional teams to resolve incidents, service requests, and operational issues. • Contributed to infrastructure reliability, operational efficiency, and continuous improvement.

Project Name	FEDX - Cognizant
Start Date	25 Oct 2022
End Date	31 Dec 2024
Project Description	Cloud infrastructure and DevOps project focused on managing and automating AWS environments, implementing CI/CD processes, containerized deployments, monitoring, security, and infrastructure provisioning using Terraform.
Roles and Contribution	• Set up and managed AWS cloud infrastructure for secure and reliable application deployments. • Automated CI/CD pipelines to streamline build and deployment processes.

	• Developed Terraform scripts for Infrastructure as Code (IaC). • Deployed and managed Kubernetes clusters on Amazon EKS, with applications containerized using Docker. • Implemented zero-downtime deployment strategies for containerized workloads. • Set up monitoring, observability, and proactive alerting for cloud resources and applications. • Supported migration of workloads from on-premises infrastructure to AWS. • Configured AWS Site-to-Site VPN and VPC peering for secure hybrid and inter-VPC connectivity. • Implemented Amazon S3 lifecycle policies to optimize storage usage and cost. • Tuned Docker containers and Kubernetes pods using resource requests/limits and affinity rules. • Configured AWS IAM policies and Kubernetes RBAC to control access to cloud and Kubernetes resources. • Managed Amazon EKS workloads with a focus on availability, scalability, and operational stability.

Educational Qualification

Qualification	Institution	Location	Duration
B. TECH	Dr. M.G.R. Educational University	Chennai	2018 - 2022
